

Course H *Science and Theology Part II: Darwin and Evolution*
(Online)

Lecturer Professor Jarrett Carty

Description

In this course we will examine Charles Darwin's *On the Origin of Species*. We will become familiar with the theory of evolution by "natural selection," its history and implications. We will learn a little about the divergent treatments of evolution in evangelical churches and in Roman Catholicism.

Outline

Week 1: A history of biology and geology prior to Darwin

Week 2: *On the Origin of Species* I

Week 3: *On the Origin of Species* II

Week 4: *On the Origin of Species* III

Week 5: Christian Theology and Evolution since Darwin

Bibliography Charles Darwin, *On the Origin of Species* (any edition is fine!).
